Printer	K3GIM
Collator	W3QQH

The "Blurb" is published by and for the members of Phil-Mont to further the interest of Amateur Radio in general and mobile radio in particular. We endeavor to keep the news accurate, interesting and in a small way educational. Any deviation from this is unintentional. Copying and quoting is permitted, provided credit lines are included. Commercial use is not permitted and subscriptions are gladly exchanged with other radio clubs.

## DEADLINES

The "Blurb" is mailed on the last Monday of the month. All material for the "Blurb" must be received by the Editor, W3ZPP, before the 15th. of the month.

## 1961 CLUB OFFICERS

Pres.	Chas. M. Snyder	W3NIP
V. Pres.	Lloyd Sherman	W3CDY
Treas.	Chas. Greenwood	W3GOW
Sec.	Ed. R. Moore	W3EQV
Brd. of Dir:	W3's NIP, VVS, QGH, AMH, AK, DSG, WNC and all 1961 club officers	

## MEETINGS

Regular meetings are normally held on the 1st. Monday of the month. Check the calendar at right for the exact date. Meetings are held at the FRANKLIN INSTITUTE at 21st. and the Parkway, starting at 2000 hours (8PM)

## NET AND NET FREQUENCIES

Ch 1 - 29493 Kcs.	Ch 3 - Unassigned
Ch 2 - 29629 Kcs.	Ch 4 - 50.7 Mcs
Scrambled Egg Net Weekdays	0730 - 0830
Ten on Ten Sundays	1000 - 1100
Blarney Sessions anytime	Ch 1 or 2
29493 Monitored daily	0930 - 2400
for the benefit of mobiles in the Phila. area.	

## PMRC CALENDAR

June 5 REGULAR MEETING  
8PM Franklin Institute

## COMING MID-MONTH MEETINGS

JUNE	W3DJW
JULY	W3QQH
AUGUST	W3NIP
September	W3CDY
OCTOBER	W3GOW
NOVEMBER	K3GIM
DECEMBER	K3GNJ

SEND ALL COMMUNICATIONS FOR THE "BLURB" TO THE EDITOR W3ZPP.

June Meeting will have film by W3QQV

Field Day will be discussed

K3KUD will have slides on recent trip to Europe with W3ZPP

## COMING EVENTS

June 10 Truck polishing party  
June 11 St Davids Sweepstakes  
June 24 & 25 Field Day  
July 24--30 AMA Fests.

THE PREZ BEZ

## FIELD DAY

The general consensus of opinion was heartily in favor of having Phil-Mont participate in a good old fashioned Field Day. While we are primarily a mobile club many felt that our mobile field day left a lot to be desired even though we did come up with pretty good scores.

It was decided, therefore, that we would get in there and pitch-- put up antennas, set up stations in the field, picnic, stay over night, get sun burned, tired and hungry and have a whole lot of a good time doing it. "Lets get on the air and really let them know that Phil-Mont is on the air", is the general idea.

This year, after a few years of less ambitious programs, we're getting all fired up again. The gang will get together and have a good time erecting antennas, who will ever forget the fun we had trying to put up W3SGR's cork-screw shaped portable antenna pole, some years back? The 2 and 10 beams that we put up one year pointed one direction on 2 meters and another on 10.

No one who was there will ever forget the lightning storm with the antennas literally spitting fire. Wasn't it that same year we found we were operating on an expired license? Maybe we can even arrange for someone to duplicate W3LNQ's errant trip into the honeysuckle patch that earned him the title of "Trackless Travers".

It's a great experience, this Field Day! If you have joined us in the past few years, you haven't seen anything until you see a real old fashioned Phil-Mont Field Day. The "parking lot" bristles with mobile whips, the barbecue stoves give off the tempting aroma of hamburgers, hot dogs and coffee at all hours. You get quite thirsty just looking into those big cans filled with crushed ice and cans of beer and soft drinks. I'm sure we can count on the oldtimers --- they may be a little more tired and just a bit heavier around the middle but they will be there. How about you, Won't you be one of those present? Plan to reserve both days--Sat. & Sun. Tell the famile right now so that they won't plan something else for you. Be there to help set up---be there to operate--- be there to eat and sleep---be there to see the sun come up on Sunday-- and most important, be there to help tear down on Sunday. You will go home on Sunday afternoon tired and a bit weather-beaten but you will have a week end worth talking about for many weeks to come.

W3NIP

~~~~~

## QSL CARDS

The orders for the QSL cards have gone in. It will only be a short time now before delivery. Arrangements are being made with the printer to send your cards directly to your home in lieu of having them sent to the club and then distributed. So watch the mail box in about a week or so.

\*\*\*\*\*

## HAM STAMP

ARRL is promoting the issue of a 50th anniversary stamp. In 1964 the league will be 50 years old, and it is expected that the postal department will honor the league on this occasion.

Save your pennies and buy a wheelbarrow full. They will be most appropriate on those special QSL cards to your favorite DX stations etc.

\*\*\*\*\*

## FCC CHIEF REQUESTS

Newton Minow, head of the Federal Communications Commission, proposed in congressional testimony made public recently that "ham" radio operators be charged a fee for their operating permits. Minow told a House Appropriations subcommittee that the amateur operators should chip in a couple of bucks for the permits to help pay for the FCC's licensing activities. Minow said he personally was for fees for "ham" licenses. He said the FCC handles hundreds of thousands, in a situation that is like applying for a driver's license.

\*\*\*\*\*

## FOOTBALL BY RADIO

The young man who takes a young lady to the game next season will not be troubled by questions as to the proceedings, if the scheme put into practice at a professional encounter in Chicago is made general. The White Sox grounds were equipped with speakers and the announcer at his microphone named the players and also described the play for the benefit of the huge audience,

Re: Radio News 1927  
Joe K3ITD

## JUNE MEETING

The program for the June meeting promises to be an outstanding one. W3QCV, Laurence will show and narrate his sound film tracing the development of the helicopter from the early models to the present. Laurence, as we all know, was a pioneer in the invention and development of this type of aircraft. This will be an unusual film and well worth your making a special effort to see, if you had not all ready planned to come to the meeting.

Ed McVaugh, W3LEM, is bringing to the meeting, for all to see, his priceless scrapbook showing many interesting scenes of the early days of flying. A little known fact to the Phil-Mont gang is that W3LEM was, at one time, flight mechanic to Amelia Earhart.

The second part of the June program will be a showing of slides by W3KUD and W3ZPP of their recent trip to Turkey.

Be sure to come out and see the entire program, it promises to be a photographer's delight.

73

John W3AWH

\*\*\*\*\*

## SWAP AND SHOP (addt'l)

FOR SALE; National NC-300 receiver in excellent condition--including  
crystal calibrator. Price complete \$225.00  
For information contact GenePressler Jr. W3ZXV  
Tel. BR 2-6172 or LO 4-1090

\*\*\*\*\*

## WILLOW GROVE 250th ANNIVERSARY & FIRE PARADE

Communications were set up for Willow Grove's 250th anniversary & Fire Parade on 27th May Sat. The Com. truck at Willow Grove Fire Company and operated by K3KUD & W3ZPP---K3GRA handled 2 meters at the Township Building. Mobiles on location were: W3QQH, W3DJV, K3GAG, W3TOV, K3HIE, K3GNW, W3YHV, W3GRY, W3YJM, W3VQI, K3GNM, W3LEM. W3QV assisted on traffic co-ordination from his QTH.

Operators were on duty from about 12 noon to 6 PM handling traffic for over 100 parade units and some 1500 persons.

The club has received a plaque for this good work which will be brought to the June meeting.

Thanks boys for a job well done.

W3LEM

## PICNIC TIME

Washington Mobile Radio Club has contacted W3PKY and asked George to get the annual half-way picnic on the road up on this end.

Havre De Grace is the place and the tentative dates are July 9th or July 16th. If you have a preference be sure to speak up and state your choice.

There are to be some changes this year I believe so come out to the meetings and keep up to date on this event.

\*\*\*\*\*

## FIFTH ANNUAL RELIABILITY RUN

On Saturday May 20th the Key Club of Abington High School held their annual reliability run.

The red truck was on hand with Bob, K3KUD, operating two meters at the starting point. W3ZPP operated Abington Township two and ten meter stations in the township building. W3YJM and W3JPP were the two check point stations and W3VVS and W3GRY were the two rovers. K3EZJ and K3GNW were on hand too.

A good time was had by all and the fellows from the high school were very happy and grateful to Phil-Mont for their assist.

More of you fellows should come out and take part in these activities-- you don't know how much fun you are missing.

\*\*\*\*\*

## " DO YOU JUST BELONG?"

Are you an active member  
The kind that would be missed,  
Or are you contented  
That your name is on the list?

Do you attend the meetings and mingle with the flock,  
Or do you stay at home to criticize and knock?

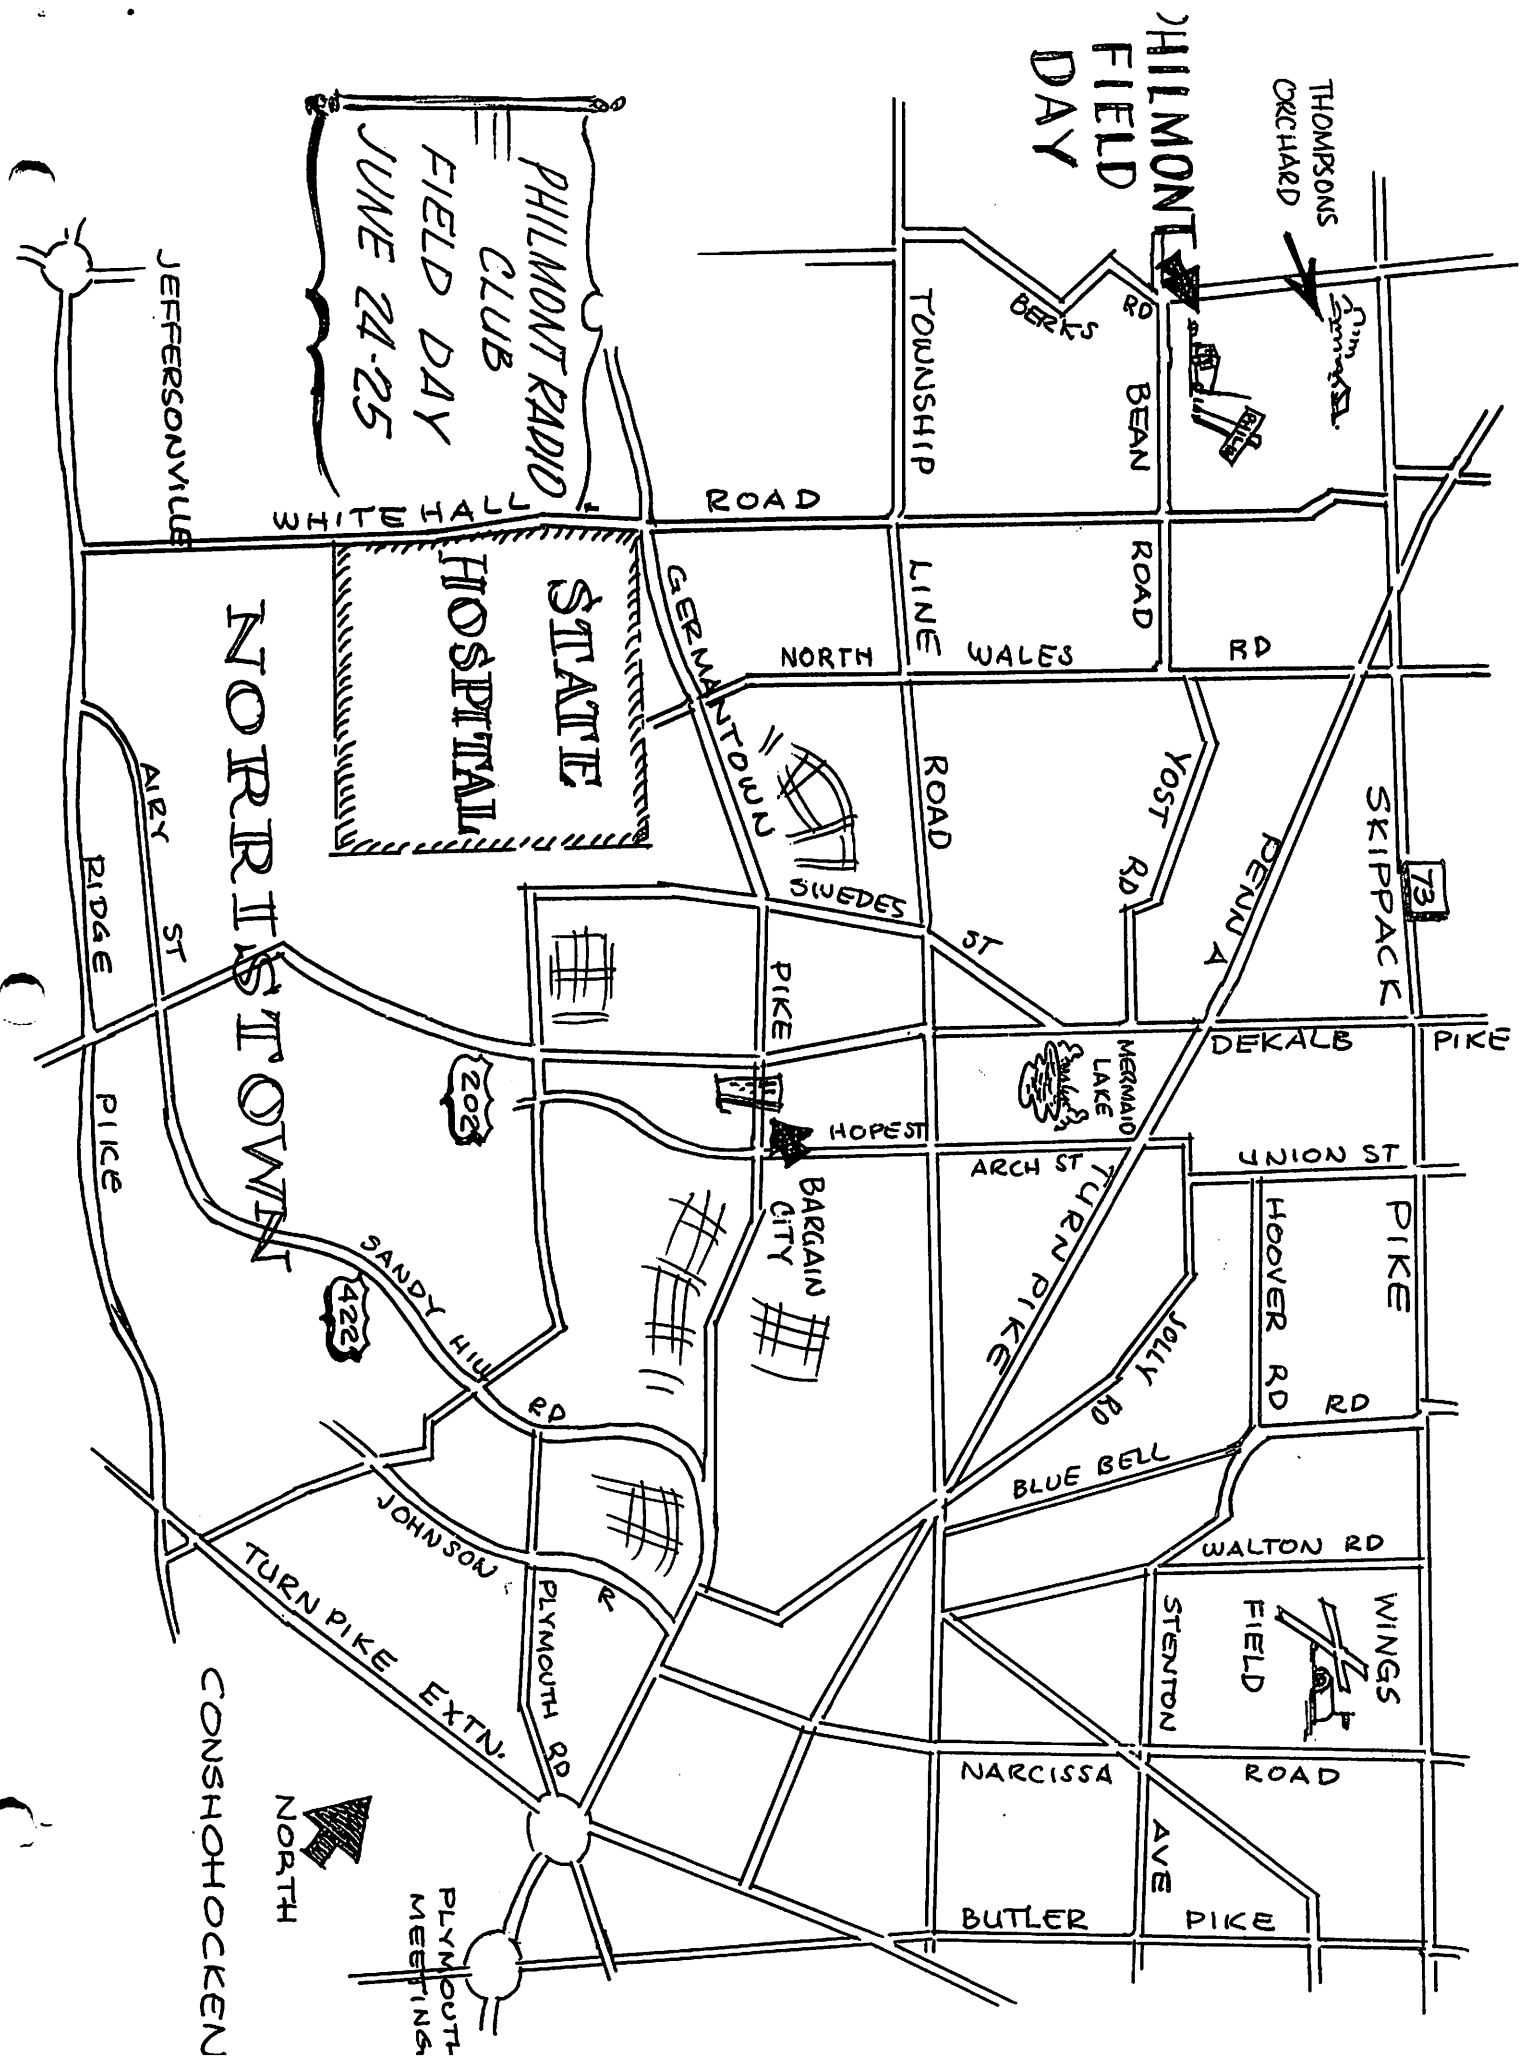

Do you take an active part to help the work along,  
Or are you satisfied to only just belong?

Do you ever go to visit a member who is sick,  
Or leave the work to just a few and talk about the clique?

Think it over member,  
You know right from wrong,  
are you an active member---  
OR DO YOU JUST BELONG?

Author Unknown-----

\*\*\*\*\*

## FIELD DAY 1961

### LOCATION

Claude Beyer Farm, Berks and Bean Roads, Montg. Co., about 4 miles west of Center Square just west of Route 73.

### BANDS OF OPERATION

2 - 6 - 10 - 15 - 20 - 40 - 80 phone and/or cw.

### ANTENNAS

40 - 80 meter doublets----10 - 6 vertical (6 meter beams if available)----  
2 - beam (if available)----10 - 15 - 20 Cubical Quad (which will go to highest bidder after FD to help defray food expenses)

### PERSONNEL REQUIRED

(4) men from 11 PM Saturday to 6 AM Sunday

- 1- W3EQV
- 2- K3GHW
- 3- ???
- 4- ???

At least (6) men at all other time throughout FD. CW operators are required for all shifts. The usual erection and clean-up crews will be needed the Saturday before and at the conclusion of FD.

### FOOD

1. K3GHW and W3EQV are going to move in on FD and will see to it that those operating will have their meals.
2. Food will be provided for the visitors to the extent of the clubs generosity of funds.
3. The operating personnels food has been arranged for.

### MOBILE OPERATION

1. Teams should be formed as before with the winning team treated to dinner.
2. The FD site is an excellent spot for mobile contacts, and each visiting Phil-Mont Field Days Mobile will be given the frequency on 10 meters to milk the area.
3. It shall be the goal of all mobile teams to make DSC a paying member at the dinner.

### FIELD DAY SCORE

1. A member is needed to handle the figures and paperwork for submission to QST.
2. It is time for Phil-Mont to move up a peg or two in the final scoring. We can have a lot of fun and still boost our total score by making all possible and types of contacts.
3. For those who know the tricks which make the best of our contacts, Tell us-

## COFFEE MUGS

Anyone desiring to place an order for coffee cup with Gumbaudi and your call letters see Bob, K3DJE. These mugs were a big hit on the last go round, so if you missed out then place you order now.

\*\*\*\*\*

## MORE FACTS

We are indebted to one of the club's leading dental experts for the following comments on the power operated toothbrush for the home: first, gadget stemmed from Switzerland, and has been improved on; gadget may encourage the younger generation to brush their teeth more; being power operated, it generates radio interference and the model tried out was a dilly in this respect; the gadget is a little heavy; and of course, it is designed to separate you, the customer from his dollar, also there may be a safety hazard if you reach over and touch the faucet while brushing your teeth---which, our source points out, you are less likely to do while shaving with an electric razor.

W3UMK

\*\*\*\*\*

## TO THE RESCUE

W3ETA rescued amnesia victim Sunday May 7th via Phil-Mont Mobile Radio club- The woman walked across in what looked like a hospital gown, Hal, W3ETA, did some quick thinking and asked the woman if he could help her, noting her state of confusion W3ETA called in on 29.493 and phones went to work bringing the police and clearing the situation very nicely. Congregation to all hands for a Job well done.

\*\*\*\*\*

## MAY MID-MONTH MEET IN RICHBORO

The 17th of May found Phil-Mont up in Richboro, Pennsylvania at the QTH of W3AHP, Hal and K3IFX Candy Rousch. This is quite a trip over the usual mid-month caravans.

We would like to thank Agnes and Hal for a nice evening. We really enjoyed ourselves.

\*\*\*\*\*

Field Bay 1961 cont'd

EQUIPMENT SHELTER

1. An enclosed equipment shelter is strongly recommended in order to facilitate loan of the best equipment and to give the equipment the proper protection in case of bad weather.

EQUIPMENT REQUIRED

|                     |                   |             |
|---------------------|-------------------|-------------|
| CW                  | 15 - 20 - 40 - 80 | (red truck) |
| SSB                 | 15 - 20 - 40 - 80 |             |
| AM                  | 10 - 15 - 20      | (red truck) |
| Standby gen (W3YHV) | 2500 watt 115V 1Q |             |

For further information and/or details contact me

BILL W3YHV  
Chairman

\*\*\*\*\*

FRANKLIN INSTITUTE REG

As you probably know, the Phil-Mont transmitter and base station was delivered to the Franklin Institute Science Museum Monday April 3, 1961. Numerous comments have been received both pro and con. The major improvement noticed is in the receiving conditions. Nelson, W3DYP, no longer has to tune for signals. Either they break the squelch or they are not readable-- it's as simple as that. There has been some comment on the quality of the audio, but QQH notes that the addition of the second remote will add 2 mfd across the line and possibly lower the frequency response. The rig was designed with reliability a prime factor. With this in mind, spare tubes were incorporated in one chassis.

We need a push to talk hand mike for the local control unit at the operating position. A bad unit is OK, we will change it to an FT button.

W3QQH

\*\*\*\*\*

QST SUBSCRIPTIONS

We are looking for a few more members to subscribe to QST in conjunction with Phil-Mont. The Club receives 50¢ for each subscription. Contact Lloyd, W3CDY.

\*\*\*\*\*

## CHANNEL CHATTER

GNM reporting on a rough three day ocean voyage --- DJW, PST and UMK accounted for a substantial portion of the attendance at the April Council of Amateur Radio Clubs of Delaware Valley meeting --- where was CDY? --- Council has eight dollars and four cents in the treasury --- two new clubs sent reps, however - WENS and York Road --- BGR re-joined Woody in advocating that the East Able Fox net on 75 use an authorized RACES frequency recently --- ADV, I'm inclined to feel, would probably welcome a change from 3997 on general principle that it couldn't be worse --

Our Cynwyd reporter has trouble hearing EM's answers to questions on this frequency if there's the least interference --- CW also a citizens' bander --- QQH won't let him forget it either --- UVL and JYA discussing conversion of an alternator from 6 to 12 volts and QV trying to join the conversation --- WNC says JYA has solved the problem in an interesting way --- Russ's call slipped JYA's memory once -- don't feel badly, Jim -- it happens to all of us sooner or later ---TKQ notes the effect of good weather conditions on zoo attendance, and reciprocally, on institute attendance --- WNC tested a Bandspanner at EID's--- YHV and GNM had such strong local interference the plaints were loud and long one afternoon --- ZN and PWG led a contingent of ten meter mobiled and fixed ops in a CD exercise in Upper Darby--- Rolly didn't have much success with his six meter gear----

KZ5CW joined us on ten on ten - Joe lives on the Pacific side of the canal--- GBA heard BGR while latter was using Messenger -- who needs over ten watts on ten? BGR was also heard in the Canal Zone --- LNA had to cope with 75 stations -- the following gem was heard on 20 meters --- "I don't care any more for these Single Sidebanders than a communist or a cannibal" ---tch! tch! --- conversation about VVS's second car has completely confused our reporter--- DSG is an authority on where to get PIZZA on the Main Line --- ZEH has put up a tower ---HFY has joined the gardening brigade, and complained of callouses ---If the Nipper needs 20 lbs. of grass seed, how much does Tex need?--- ask Tex, not the Editor.

QCV interested in remoting a Messenger - in his car ---JPP joined the SEN one morning, mit XYL too! --- WJZSJ is working for a PMRC certificate---If WPRA can score 55,000 points in sweepstakes with four contestants, how come there aren't five fellows in PMRC, exclusive of the Frankford DX-ers and contest experts, who can rack up a respectable score for PMRC? ----EES beat NPARC's Sweepstakes score ---- afternoon courtesy --- SRU and GNV heard approaching northern limits of the city and saying -- "we'll stop talking so we won't QIM the commuters" --such courtesy --- editorial comment --- such courtesy deserves a reward --- don't these two estimable gentlemen have a rock for channel two? ---seems a shame to turn such gentlemenlines off the frequency --- CW has re-named a portion of the morning net as the 'orange juice operation' ---YFV heard on 28.800 mc and also, I belive on 520 --- The Static gleefully comments when a ringer gets on 520--- JYA heard reporting loss of a bike, thru theft --- ZXV and QV met for an eyeball QSO in Norristown --- AWH and EJZ operated two meters along with HMX during Lower Merion's participation in Operation Alert ---PST, VSD, BGR and UZF also participated as did CNO, YJM and FSZ in other locations.

Saw Kermit at the meeting and forgot to ask him how the mobile was coming --- AFCEA convention is June 6, 7 and 8 at the Sheraton-Park and Shoreham, anybody going?--- there's going to be a floor show on June 6th at 7:30, with buffet --- DJE gets to read a paper free when accompanying GNM and Bob Boyle to work -- those who haven't heard Allen's description of how Boyle and DJE fight for the privilege of sleeping in the back seat have missed a treat -- what club member offered to carry some gear turned in by a prominent member, and now stored in another club member's car trunk, to another club's auction, instead of storing it for next fall's PMRC auction?

YHV and WNC were heard discussing LOX and pumpnickel --- DJE's been working some long shifts --- GRM joins in now and then and hence has to leave their car pool -- when are they going to put a Messenger in Boyle's car? GWJ now works the Doylestown area, instead of Bethlehem and gets to sleep a little longer in the mornings --- Western Division misses EQV/ mobile --- Merits of military Super-Pro receivers being discussed by ZEH and WNC --- are they portable? --- HQJ interested in a Ranger? --- QZQ worked 17 hours straight starting at 4 AM and then went to work Sunday --- what a life --- QJE heard asking whether EM was up yet on 75, not 493 --- definition of Metrecal from QQH --- hair oil for fatheads -- which one of a certain trio was that remark addressed to, Jim? --- LKQ was somewhat forcefully reminded of the date of Mid-Month while immersed in his net control work, by a member of his family --- JYA asked for riders to go to MARSFEST in Pgh with him -- where's DJW's report on what went on, Mr. Editor? --- wasn't that a condition of his not going to Old Timers Nite? --- IW missed East Able Fox rollcall, not to mention, ten on ten, after the antenna party --- Woody checked in using W3YKU call on 75 meters, and refused to tell ADV where he was on score the infor was classified data --- AJO's mobile given a good report by the Scrambled Eggers in the morning --- welcome bac, Kermit --- we've missed you, too --- YHV had quite a cruise with 'uncle' --- experienced a fire, lost a man overboard, etc., -- lube oil leak was culprit -- W3DJW to hold June Mid-Month at his QTH --- WLP can testify that AHP's KYL makes good fudge --- the comm truck received it's inspection sticker thanks to Ed, W3JEM -- sure was good to see Bob, W3IW out to the meeting again --- QQH sporting a new white paint job on his mobile --- VKN heard on 29.493 mobile -- Hi there Bill --- D&G old money bags now has two mobiles on the road -- VVS doing the same -- YHV getting field day food ready, going to store it in freezer at ZPP's --- DJE conspicuous by his absence --- AK working dx in his mobile SSB --- EQV ne score keeper for FMRC certificates --- GWJ putting up new Kreco co-plane --- LEM going to come clean at next meeting, bye bye whickers.

\*\*\*\*\*

#### NEW MEMBER APPLICATIONS

We received an application for membership from:

Leo A. Marella W3JMS

General Class

Box 117 Chalfont, Penna. Tel. VA 2-2535

Employed by --- Johnsville Naval Air Development Center as Elect.

Eng. Tech. --- works 10 meters mobile

Sponsors: W3JEM and W3JMK

Another application was received from Dick Custer, K3KDP who is General Class, We regret not having received the other information on Dick's application however we did want to have Dick advertised in "Blurb" so that voting could be held at next Mid-Month.

\*\*\*\*\*

## SWAP AND SHOP

### For Sale

1 Shure Hi Impedence Dispatcher type microphone and stand with A85C push to talk switch and S36A Stand and 20 ft. cable

QQH \$15.00

1 Hallicrafters VFO Model HET-18. 80 thru 10 AM, NEFM, CW with 3 additional crystal positions. An excellent VFO

QQH \$50.00

1 Elmac PMR-6 Vibrator power supply. 12 v dc input, 250 v @ 100 ma output. A dependable receiver and exciter supply.

QQH \$15.00

\*\*\*\*\*

### MOBILES GO RADAR (Florida Skip)

From The Press: North Tonawanda, N. Y. (UPI)

An electronics firm here has developed and "ultimate weapon" for the motorist -- and anti-radar radar device which can be mounted in an automobile to seek out and "neutralize" radar speed traps.

Providing the motorist with what in effect is his own Distant Early Warning (DEW) system against surprise attack, the gadget is being marketed by Radatron Inc. under the name "radar sentry".

It weighs 11 ounces, is battery operated and small enough to fit in the palm of the hand. It can "feel" radar impulses focusing in on a moving auto from 1200 to 1500 feet away... about a thousand feet before the critical point where a police monitor can start to measure accurately the speed of the "target".

The advance warning would be enough for all but the most determined speeders to slow down before they are "fixed" by radar.

William L. Waytena, 33 general manager and founder of Radatron in response to numerous complaints about the way police in some areas "use radar to collect revenues".

"We have received hundreds of letters, especially from the South, complaining against the uncouth tactics of police in hiding their radar installations in trees or bushes or stopping motorist going only one or two miles over the speed limit," Waytena said.

\*\*\*\*\*

### RADIO IN THE JUNGLE (Six Only)

Explorers can seldom be lost nowadays, as their predecessors often were. The Dyott expedition in the remote recesses of Brazil advised New York that they were beleaguered by bandits and governmental action was taken for rescue work. Later dispatches were reassuring; the intruders had been scared away by the roar of the battery-charging engine which sounded to their unsophisticated ears like a machine gun.

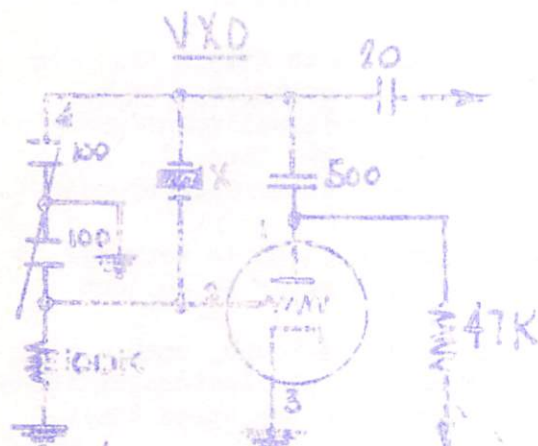

\*\*\*\*\*

WITH OUR NEW BASE STATION TO BE ON THE NOSE - FREQUENCY WISE - JIM (QQH) SUGGESTED WE WHO WANT TO GET ON THAT FREQUENCY ARRANGE TO VARY OUR XTAL FREQUENCY.

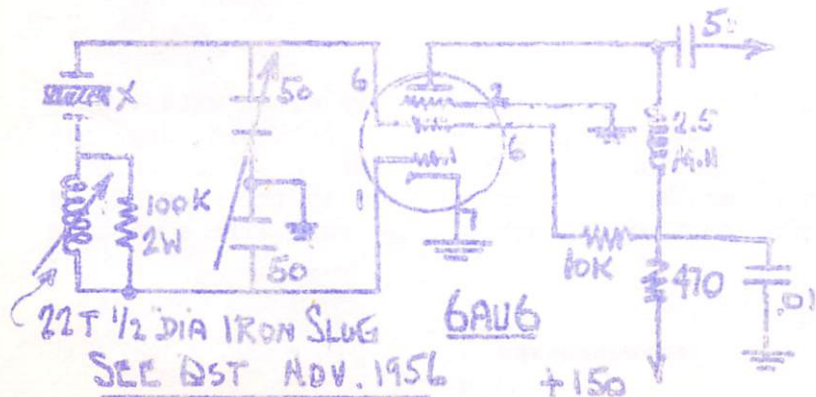

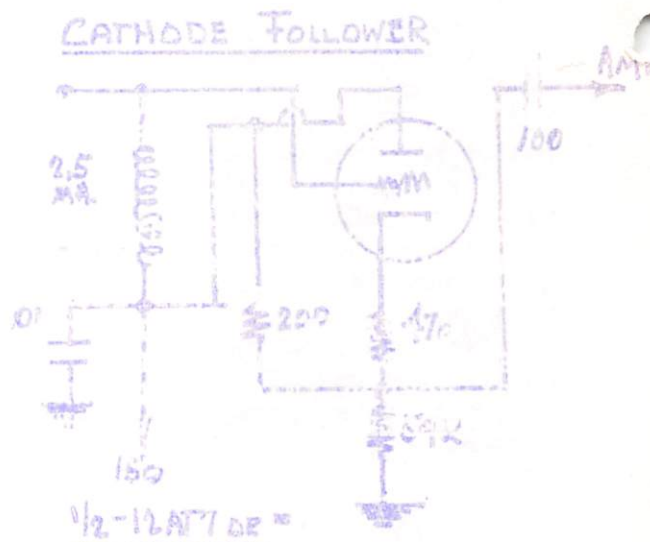

THE SIMPLEST MEANS IS TO PUT A SMALL CONDENSER ACROSS OUR CRYSTALS - A SMALL VARIABLE CERAMIC - AIR - OR COAXIAL 3-30 OR LESS.

IN MY OWN CASE I ALREADY HAD A 3-30 ACROSS MY CRYSTAL WHEN I WAS ASKED WHY I DID NOT GET ON FREQ. - USING A GOOD SHARP RECEIVER DISCONNECTED FROM THE ANTENNA AND WITH THE PHILMONT TRANSMITTER FULLY LOADED INTO AN ANTENNA - I VARIED THE CONDENSER SLOWLY GETTING CLOSER AND CLOSER TO FREQ. BUT NOT QUITE THERE. WITH THE CONDENSER ALL THE WAY OUT, I STILL HAD ABOUT 1/2 KC TO GO. REMOVING THE CONDENSER ENTIRELY AND ITS MINIMUM CAPACITY EFFECT, WAS NECESSARY TO GET ALMOST ON FREQ. BY MY STANDARD. FROM CONDENSER ALL THE WAY IN TO OUT OF THE CIRCUIT MY XTAL CIRCUIT COULD BE SHIFTED ABOUT 2-1/2 KC LOWER INFREQ.

FOR THOSE WHO HAVE XTAL OSCILLATOR KNOWN TO DRIFT OR THOSE WHO WANT A SEMI VFO OF XTAL STABILITY, THE FOLLOWING CIRCUITS MAY BE OF INTEREST -

SEE QST FEB 1956 FOR ADDITIONAL DETAIL

DEPENDING UPON THE TYPE OF XTAL THESE CIRCUITS CLAIM SMOOTH FREQUENCY SHIFTS OF 2.5 TO 12 K.C. AT THE CRYSTAL FREQUENCY

W3AK

COMING EVENTS 1961 AMA NATIONALS JULY 24 to 30

Model aviations world series will be held at the Willow Grove W.A.S. on the above dates, 5 mobiles and the comm truck will be needed every day to retrieve lost models. The Navy promises to have two helicopters for spotting. QQH will have more on this by July meeting. Plan to attend and fill out the schedule.
